- ▶ Treats up to 3,200 sq ft.

Product # E100

AprilAire E100 Dehumidifiers efficiently control moisture with automatic digital control and flexible installation options. Equipped with leveling feet or casters, they offer versatility. Featuring corrosion-resistant aluminum coils and washable MERV 8 filters, they ensure durability and clean air circulation. Designed for whole-home dehumidification, basements, and crawl spaces, they promote a healthier environment. Additionally, they circulate air to keep consistent humidity and temperature, enhancing comfort and eliminating environmental variations.
