

FOUNDATION RESCUE SUMP PUMP WITH BATTERY BACK UP BY GLENTRONICS

Product # PS-C22

Swiftly switching to battery power during AC failure, the sump pump ensures continuous operation without interruption

- ▶ Primary pump: 2770 GPH @ 10 head'
- ▶ Backup pump: 1850 GPH @ 10' head
- ▶ Preassembled for quick installation
- ▶ Automatic battery power during AC failure
- ▶ Monitoring controller detects irregularities
- ▶ Energy-efficient motor operating at 10-12 amps
- ▶ Dual float switches for dependable activation

The Foundation Rescue Sump Pump with Battery Back Up by Glentronics is suitable for use in a basement or crawlspace, arriving preassembled for swift installation in most sump pits. It seamlessly transitions to battery power in case of AC failure, with a monitoring controller detecting irregularities for added safety. Featuring an energy-efficient motor and adjustable run time, it ensures prolonged operation, providing reliable performance when you need it most. Battery NOT included.

FOUNDATION RESCUE BATTERY

Durable backup battery enhances sump pump performance with extended runtime

Product #PS-C22BATTERY

FOUNDATION RESCUE WIFI MODULE BY GLENTRONICS

Receive pump maintenance alerts via email/text with our innovative Wi-Fi module, ensuring seamless monitoring with no monthly fee.

Product #PS-WIFI

RESCUE FREEZE PROTECTOR

Prevent blockages, ensuring continuous water flow for a dry basement environment, even during heavy rains.

Product #RDFreeze

RESCUE LAWN DRAIN

Efficiently redirects water away from foundations, simplifying drainage setup for sump pumps and downspouts.

Product #RDLawn

RESCUE POP UP DRAIN

Efficiently divert water, maintaining dry spaces with minimal effort.
